

4Runner

2016

TOYOTA | Let's
Go
Places

The best adventures in life aren't found on a map.

You've got to earn the right to call yourself an off-road icon. The 2016 Toyota 4Runner brings over three decades of proven capability to your next adventure, so it has the stuff you can depend on to help you escape the city — and get back if you so desire. A powerful V6 and reinforced body-on-frame construction give the strength you need to tackle the challenges found in the wild, and aggressive styling helps earn the respect of whatever you find out there, too. And with its spacious interior and available Entune™ Premium Audio with Integrated Navigation¹ and App Suite,² 4Runner helps make roughing it a little less rough. It's time to start making the next great campfire story. Let's go places.

*"4Runner is all packed up;
we've got our coffee and
our adventure planned out.
Let's do this."*

Trail Premium shown in Barcelona Red Metallic with available rigid running boards.
Do not overload your vehicle. See *Owner's Manual* for weight limits and restrictions.

The last of its kind. True to heritage body-on-frame construction.

4Runner incorporates rugged body-on-frame construction and is equipped with skid plates to help protect the engine, front suspension and fuel tank (and the transfer case on 4x4 models). Featuring independent double-wishbone front/4-link and coil-spring rear suspension, 4Runner's chassis is a time-tested combination that's tough enough for the trail, smooth enough for the city.

APPROACH WITH CONFIDENCE

4Runner encourages you to take on the toughest trails. Up to 9.6 inches of ground clearance, an approach angle of 33 degrees and a departure angle of 26 degrees on 4Runner Trail help keep the adventure going.

LEVER-TYPE TRANSFER CASE

4WD vehicles require a system to transfer power from the transmission to all four wheels. 4Runner Trail has a lever-type transfer case that allows you to easily switch to low range to help clear the roughest challenges.

DIAL-TYPE TRANSFER CASE

With 4Runner's available dial-type transfer case on SR5 and Limited, you can switch into low range for extreme low-speed off-road conditions with the turn of a dial. Taking on hard conditions is that easy.

Trail shown in Barcelona Red Metallic with available rigid running boards.

Out here, lesser vehicles are an endangered species.

Nature is full of unexpected surprises, and only those who anticipate them are ready to endure them. 4Runner is built to conquer the toughest of these. Available Kinetic Dynamic Suspension System (KDSS) allows each wheel to respond to the terrain separately. Crawl Control (CRAWL)¹ assists the driver in determining an optimal combination of low speed and traction. Hill Start and Downhill Assist Control (HAC/DAC)^{2,3} assist the driver with braking on uphill and rough downhill situations. Thanks to these, even the meanest obstacles are just another story to laugh over at the campfire.

LOCKING REAR DIFFERENTIAL

To help you negotiate uncertain terrain, 4Runner Trail has an electronically controlled locking rear differential that distributes engine power evenly to both rear wheels, so they move at the same speed, even if one is off the ground. It also ensures a predictable output to help you maintain a controlled pace over obstacles.

MULTI-TERRAIN SELECT

Available Multi-terrain Select allows you to choose from four modes that will regulate wheelspin by adjusting the engine throttle setting and braking pressure to provide you with maximum traction on various off-road situations.

CRAWL CONTROL

The available Kinetic Dynamic Suspension System (KDSS) and Crawl Control (CRAWL) are meant to help keep optimal traction, no matter how uneven the terrain is. KDSS automatically adjusts the suspension system for better wheel articulation, while Crawl Control automatically modulates the throttle and brakes on five low-speed settings.

Trail shown in Barcelona Red Metallic with available rigid running boards. **Limited 4x4** shown in Blizzard Pearl¹ with available automatic running boards.

1. See footnote 36 in Disclosures section.

Take the reins, set the mood, choose a destination and charge on.

A rugged, yet intuitive, interior trim and panel shape give you total control of 4Runner. Traction, power, temperature, available navigation¹ and a lot more are just a turn of a knob, touch on a screen or voice-command away.

ENTUNE™ PREMIUM AUDIO WITH INTEGRATED NAVIGATION AND APP SUITE²

No adventure is complete without proper navigation, music and connectivity. Available Entune™ Premium Audio with Integrated Navigation and App Suite brings everything together in one embedded system that includes features such as a 6.1-in. high-resolution touch-screen display and integrated backup camera³ display, Siri® Eyes Free⁴, AM/FM CD player with MP3/WMA playback capability, eight speakers, SiriusXM All Access Radio⁵ with 3-month complimentary trial, auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice recognition⁸ and music streaming⁹ via Bluetooth^{®10} wireless technology.

SMART KEY SYSTEM¹¹

Getting the trip started is as easy as clearing a muddy terrain in 4Runner. When you approach the Limited with the Smart Key in your pocket, the interior illuminates automatically, the doors and rear liftgate open with the touch of a handle and the engine starts with a push of a button. That easy.

15-SPEAKER JBL® SYSTEM

Every journey has an iconic playlist. Even when you're back in the city, a song can take you back to the best moments of your trip. To ensure you don't miss a note of your music's soaring highs or thundering lows, the Limited boasts an amazing 15 speakers, including a subwoofer. It also features music streaming via Bluetooth[®] wireless technology, SiriusXM Radio capability, CD and MP3/WMA capability, USB port and auxiliary audio jack.

See footnote 13 in Disclosures section. 10. See footnote 14 in Disclosures section. 11. See footnote 21 in Disclosures section.

Limited 4x4 interior shown in Redwood leather with Entune™ Premium JBL® Audio with Integrated Navigation¹ and App Suite²

1. See footnote 19 in Disclosures section. 2. See footnote 8 in Disclosures section.

You've got freedom to roam. Outside and inside.

Exploring the vast unknown requires a great amount of space for company or cargo. 4Runner's roomy interior seats up to seven passengers and has plenty of features to keep everyone comfortable no matter how long the journey, like front and rear 12V power outlets for charging personal electronics, a variety of storage options, and available power-adjustable driver's and front passenger seats.

SLIDING REAR CARGO DECK

Get quick access to your gear, or the cooler. The available sliding rear cargo deck can support up to 440 lbs¹ and slides for an easy reach to your gear, or a quick setup before heading to the great outdoors.

POWER REAR GLASS

Grab anything from the cargo area in a snap. Instead of opening the rear liftgate every time you need something, just lower the power rear glass with a push of a button or insert the key in the rear hatch and grab it.

40/20/40 FOLD-FLAT SECOND-ROW SEAT

Every adventure has its own demands. 4Runner's split and fold-flat versatility lets you make room for everything you need by folding one or both seats down to accommodate up to 88 cubic feet of cargo¹. When not folded flat, the seatbacks recline for added passenger comfort.

¹. See footnote 3 in Disclosures section.

Trail shown in Barcelona Red Metallic with available rigid running boards and available sliding rear cargo deck. Cargo and load capacity limited by weight and distribution.

The peace of mind you need to enjoy the peace of nature.

While your many adventures have earned you a bold reputation, you're not a danger seeker. Neither are we. That's why we've equipped 4Runner with an array of active and passive safety features. The standard Star Safety System™ is designed to help you avoid trouble. Our rigorous crash testing has helped us develop a comprehensive occupant protection system that features eight standard airbags,¹ should trouble prove unavoidable.

INTEGRATED BACKUP CAMERA³ DISPLAY

When backing up, the area visible to the camera is displayed on the touch-screen display. 4Runner's available front and rear parking assist sonar beeps to tell you how close the bumpers are from an object. The faster it beeps, the closer it is.

8 airbags

A driver and front passenger Advanced Airbag System, driver and front passenger TAP (Thorax, Abdomen, Pelvis) front seat-mounted side airbags, driver and front passenger knee airbags and all-row (third-row airbags on models so equipped) Roll-sensing Side Curtain Airbags (RSCA) with cutoff switch.² It's all part of a system designed to help keep you safe.

TIRE PRESSURE MONITOR SYSTEM⁴

Proper tire pressure is important not only for good handling and fuel economy, but for your safety. 4Runner's standard Tire Pressure Monitor System (TPMS) evaluates the pressure of the tires and issues a warning if the pressure becomes critically low.

DRIVER AND FRONT PASSENGER ACTIVE HEADRESTS⁵

Designed to optimize headrest position during certain types of rear-end collisions, driver and front passenger active headrests move slightly up and forward, helping to reduce neck injuries.

Limited 4x4 shown in Blizzard Pearl¹ with available automatic running boards.

1. See footnote 36 in Disclosures section.

TRD PRO Series

Toyota Racing Development (TRD) has been dedicated to helping enthusiasts get more performance, and more fun, from their Toyotas since 1979. We've helped power everything from 200-mph race cars to Pikes Peak record holders, and we're bringing this know-how to our toughest SUV yet — the 4Runner TRD Pro Series. More than a mere sticker package, this SUV features a heavy-duty off-road TRD Bilstein® suspension, unique TRD wheels wrapped in dirt-clawing tires and a ¼-in. skid plate to help armor this truck against nature's harshest elements. A unique front fascia and special badging help the 4Runner TRD Pro Series stand out wherever it is, whether it's your local trail or the top of a volcano. It's time to go play in the mud. Let's get dirty!

TRD PRO shown in Super White.¹
1. See footnote 35 in Disclosures section.

TRD PRO shown in Super White.¹
1. See footnote 35 in Disclosures section.

TRD PRO SERIES ALLOY WHEELS

Exclusive TRD 17-in. matte-black alloy wheels¹ help 4Runner TRD Pro stand out on the streets and in the wild. These come wrapped in 31.5-in. Nitto Terra Grappler all-terrain tires for more on-road comfort and enhanced off-road traction.

TRD PRO SERIES SKID PLATE

A unique TRD Pro skid plate comes standard on 4Runner TRD Pro. Constructed from 3/4-in.-thick aluminum, this piece helps protect crucial mechanical components underneath the front end, so you can go even farther-beyond the map.

TRD PRO shown in Super White²

SR5 and SR5 Premium

Top Features

- Downhill Assist Control (DAC)¹ (4x4 models only)
- Backup camera² with projected path
- Hill Start Assist Control (HAC)³

Standard Features

- Integrated fog lights
- Projector-beam headlights with smoked trim
- Skid plates — on engine/front suspension, fuel tank and transfer case (transfer case on 4x4 models only)
- 17-in. 6-spoke alloy wheels with P265/70R17 tires
- Leather-trimmed tilt/telescopic steering wheel with audio and *Bluetooth*^{®4} hands-free phone and voice command
- Fabric-trimmed front seats; 8-way power-adjustable driver's seat with power lumbar support; 4-way adjustable front passenger seat
- Fabric-trimmed 40/20/40 split reclining and fold-flat second-row seat
- Entune[™] Audio Plus with Connected Navigation App;⁵ 6.1-in. high-resolution touch-screen display, Scout[®] GPS Link App;⁵ Siri[®] Eyes Free;⁶ SiriusXM All Access Radio;⁷ integrated backup camera² and HD Radio^{™8}

Premium Grade Adds

- Heated power outside mirrors with turn signal indicators
- Power tilt/slide moonroof with sunshade
- SofTex[®]-trimmed heated front seats; 8-way power-adjustable driver's seat with power lumbar support; 4-way power-adjustable front passenger seat
- SofTex[®]-trimmed 40/20/40 split reclining and fold-flat second-row seat
- Entune[™] Premium Audio with Integrated Navigation⁹ and App Suite⁵ and 6.1-in. high-resolution touch-screen display (standard on SR5 Premium, available on SR5)

Options

- Rigid running boards
- 50/50 split fold-flat third-row seat and sliding second row with passenger-side one-touch access to third row
- Sliding rear cargo deck with under-floor storage box (not available with third row)

Trail and Trail Premium

Adds to or replaces features offered on SR5 and SR5 Premium

Top Features

- Downhill Assist Control (DAC)¹
- Overhead console with Multi-terrain Select and Crawl Control (CRAWL)¹⁰ switches
- Locking rear differential

Standard Feature

- 17-in. 7-spoke alloy wheels with P265/70R17 tires

Premium Grade Adds

- Heated power outside mirrors with turn signal indicators
- Power tilt/slide moonroof with sunshade
- SofTex[®]-trimmed heated front seats; 8-way power-adjustable driver's seat with power lumbar support; 4-way power-adjustable front passenger seat
- SofTex[®]-trimmed 40/20/40 split reclining and fold-flat second-row seat
- Entune[™] Premium Audio with Integrated Navigation⁹ and App Suite⁵ and 6.1-in. high-resolution touch-screen display (available option for Trail)

Options

- Rigid running boards
- Kinetic Dynamic Suspension System (KDSS)
- Sliding rear cargo deck with under-floor storage box

1. See footnote 34 in Disclosures section. 2. See footnote 18 in Disclosures section. 3. See footnote 33 in Disclosures section. 4. See footnote 14 in Disclosures section. 5. Limited

Adds to or replaces features offered on Trail and Trail Premium

Top Features

- Downhill Assist Control (DAC)¹ (4x4 models only)
- Front and rear parking assist sonar
- Smart Key System² with Push Button Start and remote illuminated entry
- X-REAS Sport Enhancement Suspension

Standard Features

- 20-in. split 6-spoke alloy wheels with P245/60R20 tires
- Power tilt/slide moonroof with sunshade
- Heated power outside mirrors with turn signal indicators
- Perforated leather-trimmed heated and ventilated front seats; 8-way power-adjustable driver's seat with memory function and power lumbar support; 4-way power-adjustable front passenger seat
- Entune™ Premium JBL® Audio with Integrated Navigation³ and App Suite⁴; and 6.1-in. high-resolution touch-screen display
- Dual zone automatic climate control with air filter and second-row vents

Options

- Automatic running boards
- Leather-trimmed 50/50 split fold-flat third-row seat and sliding second row with passenger-side one-touch access to third row
- Sliding rear cargo deck with under-floor storage box (not available with third row)

TRD Pro

Adds to or replaces features offered on Trail and Trail Premium

Top Features

- Downhill Assist Control (DAC)¹
- Overhead console with Multi-terrain Select and Crawl Control (CRAWL)⁵ switches
- TRD Bilstein® high-performance shocks with rear remote reservoirs
- TRD-tuned front springs
- Locking rear differential

Standard Features

- TRD-stamped aluminum front skid plate
- TRD 17-in. matte-black alloy wheels⁶ with P265/70R17 A/T tires
- Black "TRD PRO" external hard badges
- Unique "TOYOTA" front grille
- Auto on/off headlight feature
- SofTex®-trimmed heated front seats; 8-way power-adjustable driver's seat with power lumbar support; 4-way power-adjustable front passenger seat
- SofTex®-trimmed 40/20/40 split reclining and fold-flat second-row seat
- Entune™ Premium Audio with Integrated Navigation³ and App Suite⁴; and 6.1-in. high-resolution touch-screen display
- "TRD PRO" floor mats⁷
- TRD shift knob
- HomeLink® universal transceiver

Options

- Rigid running boards
- Sliding rear cargo deck with under-floor storage box

TOYOTA FINANCIAL SERVICES

Toyota Rewards Visa®

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards Visa® adds even more value to doing the things you love.

Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every \$1 spent at participating Toyota dealers and 1 point for every \$1 spent everywhere else Visa is accepted.*

Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS)[†] is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

[†]Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty. You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

DISCLOSURES

1. Torsen® is a registered trademark of Zexel Torsen, Inc. 2. Crawl Control is designed for driving difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. Toyota 4x4s are designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or vehicle damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. 3. Cargo and load capacity limited by weight and distribution. 4. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. 5. 2016 EPA-estimated mileage. Actual mileage will vary. 6. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. 7. 17-in. off-road performance tires are often expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy, depending upon tires used and driving conditions. 8. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 9. Entune™ is a trademark of Toyota Motor Corporation. Always drive safely, obey traffic laws and focus on the road while driving. Services vary by phone/carrier. Functionality depends on many factors. Services subject to change. For enrollment and more details, see toyota.com/entune. 10. May not be compatible with all mobile phones, MP3/ WMA players and like models. 11. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. 12. Advanced voice recognition capabilities vary by head unit. 13. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 14. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 15. Always drive safely, obey traffic laws and focus on the road while driving. Siri® is available only on iPhone® 4S or later, iPad® with Retina® display, iPad mini™, and iPod touch® (5th generation) and requires Internet access. Siri® is not available in all languages or all areas, and features vary by area. Some Siri® functionality and commands are not accessible in the vehicle. Data charges may apply. See apple.com and phone carrier for details. 16. SiriusXM services require a subscription after 3-month trial period. **Subscriptions governed by SiriusXM Customer Agreement available at www.siriusxm.com. If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 17. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 18. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 19. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your dealer. See your *Navigation System Owner's Manual* for details. 20. PANDORA®, the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission. 21. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 22. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 23. This floor mat was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with retention hooks/clips. Do not install a floor mat on top on of an existing floor mat. 24. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 25. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 26. Smart Stop Technology® operates only in the event of certain simultaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. 27. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/ warnings. 28. Do not use rearward-facing child seats in any front passenger seat without switching off the passenger-side airbag. Please see your *Owner's Manual* for details. 29. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 30. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. 31. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect®-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 32. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Toyota dealer can help, or you can find a qualified independent locksmith to replace your key or perform high-security key services at www.aloa.org. 33. HAC is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See *Owner's Manual* for details. 34. DAC is designed to help the driver maintain vehicle control and speed on steep, downhill descents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 35. Not available on Limited. 36. Extra-cost color. 37. Not available on SR5 and Trail. 38. Available only on TRD Pro. 39. Availability subject to change. 40. The Toyota Genuine Accessory Warranty will only apply when the installation is performed by a trained Toyota-approved installer. Please see dealer for details. 41. Available only for vehicles equipped with factory remote keyless entry and Smart Key. 42. Structures may interfere with signal. Compatible with all Apple® products using iOS 5.0 or later. Requires free app download. See *Owner's Manual* for details.

Toyota 4Runner is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receivers/ball mount kits are not intended to provide crash protection.

For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
